

Tax Credits for Individuals and Families

Vermont Health Connect will be a marketplace where individuals, families and small businesses in Vermont can compare health plans and select one that fits their needs and budget.

If you purchase a health plan through Vermont Health Connect, you may qualify for a federal tax credit that will help you pay for part of your monthly premiums starting in 2014. You can choose to apply your tax credit to your monthly premiums or you can get it all at once when you file your federal income taxes. Financial help will also be available for some individuals and families to help pay for out-of-pocket health care costs. In addition, Vermont is one of only two states that is considering a state supplement to federal Premium and Cost Sharing Assistance.

Visit www.VermontHealthConnect.gov to learn more about what Vermont Health Connect means for you.

Find out if you will qualify for a tax credit in 2014:

*We've limited this worksheet to families of 4 or fewer but families of 5 or more might still qualify for a tax credit depending on their household income
 **The household income amounts listed above are based on 2013 estimates and will change slightly in 2014.
